## Segregation of Money

All client money deposited with TigerWit are fully segregated from the company's own money and are kept in separate bank accounts. This ensures that money belonging to clients cannot be used for any other purpose.

## Additional Measures We Take

TigerWit is partnered with several major banking institutions and client money is always kept in segregated accounts at appropriately regulated banks and credit institutions. Internal limits ensure a diversification of client money among banks, while credit risk is regularly monitored.

TigerWit offers Negative Balance Protection guarantee to all clients as part of the Client Agreement, unless notified expressly to the contrary and as long as it is not manipulated and is accepted in good faith. We are committed to a strict policy ensuring that clients may never lose more than their total deposits.

**Risk Warning:** CFDs are leveraged products and can result in the loss of all invested capital. Please consider our ['Risk Disclosure Notice'](#).
